Annual Report 2016

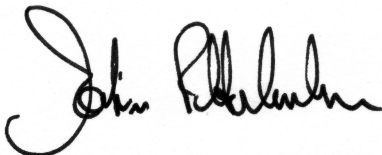

In February we were invited to participate at “Monumento Salzburg 2016” trade fair for monument preservation, restoration and conservation. We were kindly hosted by ÖRV at their stand and wish to publicly thank for this great opportunity.

End of March the Ministry for Cultural Affairs and Tourism published the list of officially certified Conservator Restorer collaborators / technician. Due to several errors the list of more than 10.000 people was refined several times.

During our General Meeting in April some final retouching of our web-page was made and put online with this URL <http://vrks-arca.it/> . A huge milestone with a long gestation was finally realized!

In July the Ministry for Cultural Affairs and Tourism published a partial list of certified conservator restorer but an appeal was lodged by the association of conservator restorers named “La Ragione del Restauro” and the list was retreat.

A new chapter was added to the never ending story of getting an official title to Conservator Restorers in Italy. It started in the year 2009. We keep on fighting!
